

## Cue Biopharma to Present at the 2023 American Society of Clinical Oncology (ASCO) Annual Meeting

May 15, 2023

- Company to host Investor Update call on June 14, 2023 to review and discuss the clinical progress and associated data presented at ASCO

BOSTON, May 15, 2023 (GLOBE NEWSWIRE) -- [Cue Biopharma, Inc.](#) (Nasdaq: CUE), a clinical-stage biopharmaceutical company developing a novel class of injectable biologics to selectively engage and modulate disease-specific T cells directly within the patient's body, announced today the presentation of a poster at the American Society of Clinical Oncology (ASCO) Annual Meeting, taking place June 2-6, 2023 in Chicago, IL.

The poster will highlight the company's lead clinical drug candidate from the CUE-100 series of interleukin 2 (IL-2)-based biologics, CUE-101, for the treatment of patients with human papilloma virus (HPV16+) recurrent/metastatic head and neck squamous cell carcinoma (R/M HNSCC) as a monotherapy and in combination with pembrolizumab (KEYTRUDA®).

The Company will host an Investor Update call on Wednesday, June 14, 2023 to review and discuss the clinical progress and associated data presented at ASCO on June 5. Call details will be issued prior to the event.

### Presentation Details

**Title:** A phase 1 dose-escalation and expansion study of CUE-101, a novel HPV16 E7-pHLA-IL2-Fc fusion protein, given as monotherapy and in combination with pembrolizumab in patients with recurrent/metastatic HPV16+ head and neck cancer.

**Abstract Number:** 6013

**Session:** Head and Neck Cancer

**Poster Session Display Date and Time:** June 5, 2023, 1:15 PM-4:15 PM CDT

**Presenter:** Christine Chung, M.D., Moffit Cancer Center

**Poster Discussion Session Date and Time:** June 5, 2023, 4:30 PM-6:00 PM CDT

**Discussant:** Erminia Massarelli, M.D., Ph.D., City of Hope Comprehensive Cancer Center

*The poster will be available in the Investor & Media section of the Company's website at [www.cuebiopharma.com](http://www.cuebiopharma.com) under Scientific Publications and Presentations, following the presentation.*

### About Cue Biopharma

Cue Biopharma, a clinical-stage biopharmaceutical company, is developing a novel class of injectable biologics to selectively engage and modulate disease-specific T cells directly within the patient's body. The company's proprietary platform, Immuno-STAT™ (*Selective Targeting and Alteration of T cells*) and biologics are designed to harness the body's intrinsic immune system as T cell engagers without the need for ex vivo manipulation or broad systemic modulation.

Headquartered in Boston, Massachusetts, we are led by an experienced management team and independent Board of Directors with deep expertise in immunology and immuno-oncology as well as the design and clinical development of protein biologics.
