Cue Biopharma to Present at The Promise of Interleukin-2 Therapy Conference

September 3, 2024

BOSTON, Sept. 03, 2024 (GLOBE NEWSWIRE) -- Cue Biopharma, Inc. (Nasdaq: CUE), a clinical-stage biopharmaceutical company developing a novel class of therapeutic biologics to selectively engage and modulate disease-specific T cells, today announced that members of its management team will deliver two presentations at The Promise of Interleukin-2 Therapy Conference, taking place September 4-7, 2024 in Paris, France.

Presentation Details
Date and Time: Friday, September 6, 2024, 4 p.m. CET
Presentation Title: CUE-401: A Novel IL-2/TGF-beta fusion protein for the induction & expansion of FOXP3+ regulatory T Cells
Presenter: Steven Quayle, Ph.D., vice president & head, Biology Research & Translational Medicine, Cue Biopharma

Dr. Quayle will present preclinical data on our first-in-class bispecific fusion protein, CUE-401, which induces and expands regulatory T cells (Tregs) through the co-delivery of interleukin 2 (IL-2) and transforming growth factor beta (TGF-β), and how this approach differentiates from other Treg-directed therapies.

Date and Time: Saturday, September 7, 2024, 9 a.m. CET
Presentation title: Clinical safety and efficacy of TCR-specific engagers that selectively target IL-2 to tumor-specific T cells
Presenter: Matteo Levisetti, M.D., chief medical officer, Cue Biopharma

Dr. Levisetti will discuss how the company's lead oncology programs CUE-101 and CUE-102, representative of the CUE-100 series of Immuno-STAT™ biologics, enable selective targeting of the cytokine IL-2 to tumor specific T cells for enhanced efficacy and safety profiles.

About Cue Biopharma
Cue Biopharma, a clinical-stage biopharmaceutical company, is developing a novel class of injectable biologics to selectively engage and modulate disease-specific T cells directly within the patient's body. The company's proprietary platform, Immuno-STAT ™ *(Selective Targeting and Alteration of T cells)*, and biologics are designed to harness the curative potential of the body's intrinsic immune system through the selective modulation of disease-specific T cells without the adverse effects of broad systemic immune modulation.

Headquartered in Boston, Massachusetts, we are led by an experienced management team and independent Board of Directors with deep expertise in immunology and immuno-oncology as well as the design and clinical development of protein biologics.

Forward-Looking Statements
This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements include, but are not limited to, those regarding: the company's belief regarding the potential benefits and applications of its drug candidates and programs, including the transformational potential of the company's Immuno-STAT™ platform to accomplish its mission of developing breakthrough immunotherapies to establish a new standard of care in the treatment of cancer and autoimmune disease; the near-term and intermediate value creation potential of its autoimmune programs; the company's intention to preserve the value of its oncology programs; the company's business strategies, plans and prospects, including those related to the prioritization of CUE-401 and CUE-501, and the potential benefits of the company's program prioritization and realignment on its burn rate; and the cash runway of the company and the sufficiency of the company's cash and cash equivalents to fund its operations. Forward-looking statements, which are based on certain assumptions and describe the company's future plans, strategies and expectations, can generally be identified by the use of forward-looking terms such as "believe," "expect," "may," "will," "should," "would," "could," "seek," "intend," "plan," "goal," "project," "estimate," "anticipate," "strategy," "future," "likely," "promise" or other comparable terms, although not all forward-looking statements contain these identifying words. All statements other than statements of historical facts included in this press release regarding the company's strategies, prospects, financial condition, operations, costs, plans and objectives are forward-looking statements. Important factors that could cause the company's actual results and financial condition to differ materially from those indicated in the forward-looking statements include, among others, the company's ability to shift its focus to its autoimmune assets and achieve the cost savings that it is projecting; the company's limited operating history, limited cash and a history of losses; the company's ability to achieve profitability; potential setbacks in the company's research and development efforts including negative or inconclusive results from its preclinical studies or clinical trials or the company's ability to replicate in later clinical trials positive results found in preclinical studies and early-stage clinical trials of its product candidates; serious and unexpected drug-related side effects or other safety issues experienced by participants in clinical trials; its ability to secure required U.S. Food and Drug Administration ("FDA") or other governmental approvals for its product candidates and the breadth of any approved indication;

adverse effects caused by public health pandemics, including possible effects on the company's operations and clinical trials; delays and changes in regulatory requirements, policy and guidelines including potential delays in submitting required regulatory applications to the FDA; the company's reliance on licensors, collaborators, contract research organizations, suppliers and other business partners; the company's ability to obtain adequate financing to fund its business operations in the future and ability to continue as a going concern; the company's ability to maintain and enforce necessary patent and other intellectual property protection; competitive factors; general economic and market conditions and the other risks and uncertainties described in the Risk Factors and Management's Discussion and Analysis of Financial Condition and Results of Operations sections of the company's most recently filed Annual Report on Form 10-K and any subsequently filed Quarterly Report(s) on Form 10-Q. Any forward-looking statement made by the company in this press release is based only on information currently available to the company and speaks only as of the date on which it is made. The company undertakes no obligation to publicly update any forward-looking statement, whether written or oral, that may be made from time to time, whether as a result of new information, future developments or otherwise.
